

## Security Practices

### Physical Access

The ITS servers used to provide the Services will be located in a controlled access data center operated by ITS.

Access to the data halls will be restricted to ITS employees or its agents who need access for the purpose of providing the Services.

The data center will be staffed 24/7/365 and will be monitored by video surveillance.

Entrance to the data center will be authorized by proximity-based access cards and biometric hand scanners or other approved security authentication methods.

ITS Personnel ITS will perform background screening of its employees who have access to customers' accounts.

ITS will report to you any unauthorized access or release of your information of which we become aware. Upon request, we will promptly provide to you all information and documentation that we have available to us in connection with any such event.
